EXECUTIVE SUMMARY

Visionary **Vice President of Engineering & Solutions Architect** with **16 years** of experience designing and delivering high-performance, scalable software solutions for Top Tier Financial Institutions, including Wells Fargo, JPMorgan Chase, and Bank of America. Deep expertise in modernizing legacy systems through **Cloud-Native Transformations, .NET Core Microservices Architecture, and Azure Cloud Strategies**. Proven track record of directing high-velocity engineering organizations, establishing robust data governance, and enforcing enterprise-grade security protocols. Passionate about translating complex business vision into robust technical roadmaps and fostering a culture of continuous engineering innovation.

TECHNICAL COMPETENCIES

Architectural Patterns: Microservices, Event-Driven Architecture, Micro Frontends,DDD, Serverless, SOA, CQRS.

Cloud Infrastructure: Microsoft Azure (Certified AZ-104/204), AWS, OpenShift, Docker, Kubernetes (K8s).

Languages & Frameworks: C#, .NET Core, ASP.NET Web API, Java (Spring Boot), Python, Angular, React.js.

Security & Governance: Azure Purview, Azure Key Vault, Zero-Trust Architecture, OAuth2, JWT, PCI-DSS compliance.

AI & GenAI: OpenAI API, Large Language Models (LLM) Integration, Tachyon, Prompt Engineering.

Data Storage: SQL Server, MySQL, Redis (Caching), Confluent Kafka, Azure Service Bus, Apache Iceberg, NetApp.

DevOps & Tools: Azure DevOps, Jenkins, UCD, Git, Bitbucket, SonarQube, Apigee API Gateway, Splunk.

PROFESSIONAL EXPERIENCE

Wells Fargo

Jun 2021 – Present

Vice President Engineering

Hyderabad, India

Tech Stack: C#, .NET Core, Azure, Purview, OpenAI API, Confluent Kafka, Redis, Spark, OpenShift

- **Engineering Leadership:** Directed the strategic modernization of mission-critical monolithic applications to **.NET Core** and **OpenShift**, establishing a resilient cloud-native platform that improved enterprise scalability by 40%.
- **Data Security & Governance:** Directed enterprise data governance strategies leveraging **Azure Purview**, ensuring strict compliance with financial regulations through automated data lineage, RBAC, and dynamic data masking for sensitive assets.
- **Zero-Trust Architecture:** Championed a zero-trust security posture across the cloud ecosystem, implementing end-to-end encryption (TLS 1.3), automated vulnerability scanning, and centralized credential management via **Azure Key Vault**.
- **Distributed Architecture:** Drove enterprise event-driven design standards, overseeing the rollout of high-throughput microservices using **Confluent Kafka** and **Redis** for sub-millisecond, real-time data streaming.
- **Data Strategy:** Guided the architectural vision for a modern data layer utilizing **Apache Spark** and **Apache Iceberg** to process petabyte-scale datasets seamlessly without requiring new database provisioning.
- **AI Innovation Strategy:** Led organizational initiatives to integrate **Generative AI** into financial workflows; managed Proof of Concepts (POCs) utilizing **OpenAI API** and **Tachyon** to automate complex data analysis.
- **Operational Excellence:** Established a "Zero Defect" engineering culture across multiple teams by enforcing rigorous **TDD**, automated regression frameworks, and **CI/CD pipeline** modernization via Azure DevOps.
- **API Governance:** Defined enterprise-grade RESTful API standards across the division, integrating **Apigee Gateway** for centralized traffic management, throttling, and API security compliance.

JPMorgan Chase

Software Developer

Tech Stack: C#, .NET Core, Java, SQL Server, Jenkins, Agile/Scrum

Jun 2018 – Jun 2021

Hyderabad, India

- **Legacy Modernization:** Orchestrated the complex migration of legacy batch processes into highly scalable **.NET Core Microservices** (with Java interoperability), enhancing system agility and real-time processing capabilities.
- **Performance Engineering:** Executed deep-dive optimizations on complex stored procedures and database schemas within **SQL Server**, utilizing advanced indexing to drastically reduce retrieval latency.
- **Secure System Integration:** Architected secure, compliant integration pathways for cross-border financial data systems, implementing robust data sanitization and strict regulatory governance.
- **Achievement:** Honored with the "Guard of Fort / 5 Keys" award for maintaining the highest standards of operational security and data integrity.

Bank of America

Analyst

Tech Stack: .NET, C#, SQL Server, Web Services, Banking Systems

Jun 2016 – Jun 2018

Hyderabad, India

- **Application Security:** Developed mission-critical web applications within the **.NET ecosystem**, enforcing rigorous data security policies to safeguard PII and maintain strict **PCI-DSS compliance**.
- **Process Improvement:** Collaborated with cross-functional global teams to integrate enterprise monitoring tools, enhancing the visibility of business operations.
- **Database Management:** Focused on backend stability, utilizing advanced normalization techniques to efficiently manage complex financial datasets.

Tekfriday Processing Solution

Team Leader

Tech Stack: C#, ASP.NET, SQL Server, MVC

Sep 2013 – Jun 2016

Hyderabad, India

- **Team Leadership:** Led a development team through the full SDLC (Software Development Life Cycle), from requirement gathering to production rollout.
- **System Design:** Designed scalable modules using Component-Based Architecture to support rapid business growth.

EARLY CAREER

Mobiware Inc

Senior Software Engineer

Dec 2012 – Sep 2013

Hyderabad, India

Focused on developing robust backend services and optimizing application performance for mobile-responsive platforms.

Softnet Technoware Pvt. Ltd

Software Engineer

Apr 2010 – Dec 2012

Bhubaneswar, India

Started career developing foundational modules and learning enterprise software standards.

EDUCATION & CERTIFICATIONS

B.Tech - Computer Science | BPUT Odisha (2009)

Microsoft Certified: Azure Administrator Associate (AZ-104)

Microsoft Certified: Azure Developer Associate (AZ-204)

Microsoft Certified: Azure Fundamentals (AZ-900)

Professional Training: Cloud Architecture, Microservices Design Patterns
